ABOUT ME

Passionate developer with 3 years of experience building backend solutions. Enjoys solving complex challenges and experimenting with new technologies.

PROFESSIONAL EXPERIENCE

Python/Django Intern   12/2024 – 05/2025
Kelaasor   Tehran, Iran
In kelaasor I've Gained hands-on experience in backend development and improved user engagement by 20%

JavaScript/React   03/2023 – 04/2024
Freelancer
I worked as a Front-End freelancer for 2-years until I found my passion about server side challenges and structure

SKILLS

Python — Proficient   **Django** — Proficient

React — Amateur   **REST API's** — Proficient

Golang — Amateur   **Redis** — Proficient

PostgreSQL — Competent   **JavaScript** — Competent

PROJECTS

Personal cloud storage   06/2025 – 07/2025
As a fun side project I decided to make my own cloud storage and by challenging my linux/docker skills I managed to make it just in a week

User/Admin panel 🔗   06/2025 – 04/2025
at kelaasor
Engineered a real-time progress dashboard for the learning platform, **directly leading to a 20% rise in user engagement.**

Backend for E-commerce Aggregator 🔗   04/2025
Built the backend system for a price comparison platform, handling product data aggregation and search. Designed the database schema and implemented high-performance APIs for filtering and product discovery.

COURSES

Python-django bootcamp   12/2024 – 08/2025
Kelaasor

JavaScript-react courses   05/2023 – 07/2024
Scrimba
